ABSTRACT	Memo from William P. Bundy, DAD/ONE to DDI. Subject: ONE Highlights during DCI's Trip; 1 p.			

This item contains a draft text for section III (National Estimates) of the NSC Progress Report on Foreign Intelligence. It states that procedure for producing estimates have been refined and improved especially in relation to coordination with other agencies, quality of estimates, and subject matter. Problems still exist in coverage of political, scientific, technical, and military capabilities and in the range (long-term and short-term) of estimates. Also included are memos giving the number of SNIE's and NIE's for FY's 1953-1954 and the specific estimates produced during the period from 7 Aug-9 Oct. 1956. Production coordination is discussed.
